

## GLEANNINGS

**THE LICENSE LAW.**—A meeting of the Exchange, Stock and Real Estate Brokers, in Charleston, was held last week, and the following resolution unanimously adopted:

**RESOLVED,** That a committee of three be appointed by the chairman, who shall consult with other parties, whose interests are affected by the State License Law, upon the expediency of resistance to said law, and report at an adjourned meeting to be held on Monday next, the 25th instant, at one P. M.

We learn, by telegraph, says the (Columbia) CAROLINIAN, that the case of the State vs. W. D. Aiken for the killing of J. W. Clark, terminated last evening in the full acquittal of the defendant.

While the friends of Mr. Aiken deeply regret the occurrence that cost Mr. Clark his life, they will be gratified to learn that the plea of self-defense has been sustained in court.

The trial lasted five days, and excited great interest in the community.

The Supreme Court has decided that payments by railroads to the State, during the war, were illegal, and that the indebtedness must be paid in greenbacks. The court also decided that citizens are not responsible for cotton destroyed by order of Confederate military authorities.

Information has been received in Paris from Spain, that the Carlists are endeavoring to import arms, with the object of rising against the government. It is stated however, that internal dissension prevails in the organization, which, it is thought, may prevent any demonstration.

At the last term of the Supreme Court, the following order was made:

It is ordered, that at the April term of this Court, commencing on the third Tuesday of April next, the causes on the several Circuits shall be called on the following order, and the time to be allowed to the hearing of causes from each Circuit shall be to the day fixed for the commencement of the next, except as to the Seventh Circuit, to which shall be allowed three days.

Second Circuit, Tuesday, April 16.  
Eight Circuit, Thursday, April 18.  
Fifth Circuit, Tuesday, April 23.  
Third Circuit, Friday, April 26.  
First Circuit, Tuesday, April 30.  
Sixth Circuit, Tuesday, May 7.  
Fourth Circuit, Monday, May 13.  
Seventh Circuit, Wednesday, May 15.  
At 12 M., the Court adjourned until Wednesday; February 10 A. M.

At a meeting of the stockholders of the Spartanburg and Union Railroad Company, held at their office, at Columbia, S. C. March 12, 1872, the following directors were elected: H. G. Worthington, N. G. Parker, Hardy Solomon, J. J. Patterson; C. D. Melton, F. S. Jacobs; Thos. Steers. The directors organized by electing John J. Patterson President, and F. S. Jacobs, Secretary and Treasurer.

**A CEMENT THAT WILL STAND BOILING WATER OR STEAM.**—Take two ounces sal ammoniac one ounce of the flour of sulphur, sixteen ounces of iron filings, or parings; mix all well together in a mortar, and keep the mortar dry. When wanted for use take one part of the powder and twenty parts of clean iron borings, and mix, by stirring, in a mortar. Wet the compound to proper consistency; apply it to joints with an iron or wooden spatula. The above is a splendid cement for steam engines.

Advertising as the means of prosperity is not as well understood as it should be. Nothing can take its place. It is a fact that no one who has advertised liberally and systematically has felt like disputing that it was the best spent money he put into business. As a horse was never made fat by a single bushel of corn, so a single advertisement is never a perfect test of the benefits of advertising. The man with genuine wares to sell who advertised them in the right way without success, would be a curiosity.

**THE GIRL WHO WINS.**—The time has passed away when women must be pale and elidate to be called interesting, when she must be totally ignorant of all practical knowledge to be called refined and high bred, when she must know nothing of the current political news and strong minds.

It is not a sign of high birth or refinement to be sickly and ignorant. Those who affect anything of the kind are behind the times, and must shake up and air themselves mentally and physically, or drop under the firm strides of common men's ideas, and be crushed into utter insignificance.

In these days an active rosy faced girl with brain quick and clear, warm, light heart, a temper quickly heated at intended insult or injury, and just as quick to forgive; whose feet can run as fast as her tongue and not put her out of breath; who is not afraid of freckles, or to breathe the pure air of heaven, unrestrained by the drawn curtains of a close carriage; and, above all, who can speak her mind and give her opinion on important topics which interest intelligent people, is the true girl who will make a good woman.

This is the girl who wins in these days.

Even fops and dandies, who strongly oppose woman's right, like a woman who can talk well even if she is not handsome.

They weary of the most beautiful creature if she is not smart. They say, "Ah, yes, she is a beauty, and no mistake. but she won't do for me—lack brains"—of which commodity it would seem she could have little use in her associations with him; however, to please even an empty headed fop, a woman must know something.

The man who never alters his opinion is like standing water, and breeds reptiles of the mind.

**THE SINGER STILL TRIUMPHANT!**

THIS

**NEW FAMILY SINGER SEWING**

**MACHINE,**

WITH ATTACHMENTS FOR ALL KINDS OF WORK

is fast winning favor in the household, as shown by the rapidly increasing sales.

This NEW FAMILY SEWING MACHINE is capable of a range and variety of work such as was once thought impossible to perform by machinery. We claim and can show that it is the cheapest, most beautiful, delicately arranged, nicely adjusted, easily operated, and smoothly running of all the Family Sewing Machines. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of texture which it will sew with equal facility and perfection, using silk twist, linen or cotton thread, fine or coarse, making the Interlocked-elastic stitch, alike on both sides of the fabric sewn. Thus, beaver cloth, or leather, may be sewn with great strength and uniformity of stitch; and, in a moment, this willing and never-wearying instrument may be adjusted for fine work on gauze or gossamer tissue, or the tucking of tarlatan, or ruffling, or almost any other work which delicate fingers have been known to perform.

At the World's Fair, it received the great award of the highest sales!
